Implemented game modes catalogued from [GAMES](#)

EYLF V2.0 curriculum research and Sylvie Phonics feature map

This document ties **Australia's nationally approved Early Years Learning Framework V2.0 (2022)**—*Belonging, Being & Becoming*—to **Sylvie's Phonics Adventure** ([index.html](#)). It includes the contextual “Australian four-year-old / kindergarten-preschool” narrative you supplied, mapped into the same framework.

Primary sources

- Australian Government Department of Education (AGDE). (2022). *Belonging, Being and Becoming: The Early Years Learning Framework for Australia (V2.0)*. Available from the Australian Children's Education and Care Quality Authority (ACECQA): [Approved learning frameworks](#) (PDF titled *EYLF-2022-V2.0*).
- Supporting context: [Department of Education – Early Years Learning Framework](#).

Important scope note

The EYLF is written for **approved education and care services, educators**, and **approved providers** planning place-based programs. Sylvie Phonics is a **family-facing offline web app** focused on phonics, oral language, and early reading play. It can **align with** aspects of outcomes and practices—especially intentional teaching, play-based rehearsal, literacy, and adult partnership—but it does **not** replace a kindergarten program, NQS assessment, educator judgment, or community/cultural curriculum.

• 1. What the official EYLF V2.0 contains (research summary)

The Framework is organised into interdependent elements: **Vision** (Belonging, Being, Becoming), **eight Principles**, **seven Practices**, and **five Learning Outcomes**, all centred on children's learning, development, and wellbeing (AGDE, 2022).

1.1 Vision: Belonging, Being & Becoming

- **Belonging**: shaping identity through relationships with people, places, cultures.
- **Being**: honouring children in the present; childhood as valuable in its own right.

- **Becoming:** learning and identity change through experience and transitions.

These ideas run across all outcomes; they are not separate “lesson topics.”

1.2 The five learning outcomes (official wording)

Per AGDE (2022), approved services use these outcomes:

1. Children have **a strong sense of identity**.
2. Children are **connected with and contribute to their world**.
3. Children have **a strong sense of wellbeing**.
4. Children are **confident and involved learners**.
5. Children are **effective communicators**.

Each outcome expands into **several outcome focus areas**, each with:

- Narrative explanation (why it matters pedagogically).
- Bullet lists headed **This is evident when children, for example: ...**
- Parallel lists headed **Educators promote this learning for all children when they, for example: ...**

This app mapping emphasises **child-facing affordances** and **parent/coach scaffolding**. Most **educator-only** bullets (staff meetings, displaying flags in a service, service policies, etc.) are noted as **out of product scope** but **partnership relevant** for families discussing kindly with educators.

1.3 The eight principles (official list)

From the Framework diagram (AGDE, 2022):

1. Secure, respectful and reciprocal relationships
2. Partnerships
3. Respect for diversity
4. Aboriginal and Torres Strait Islander perspectives
5. Equity, inclusion and high expectations
6. Sustainability
7. Critical reflection and ongoing professional learning
8. Collaborative leadership and teamwork

1.4 The seven practices (official list)

1. Holistic, integrated and interconnected approaches
2. Responsiveness to children
3. Play-based learning and intentionality
4. Learning environments
5. Cultural responsiveness
6. Continuity of learning and transitions
7. Assessment and evaluation for learning, development and wellbeing

• 2. Your contextual narrative (“four-year-olds in Australia...”) — line-by-line mapping

Below, each paragraph or bullet from your curriculum note is mapped to existing game modes / UI or planned / out-of-scope items. Game `id`s match `GAMES` in `index.html`.

YOUR LINE	MAP TO SYLVIE PHONICS
<i>Four-year-olds in Australia follow a play-based curriculum (EYLF V2.0), typically delivered through preschool or kindergarten ... focuses on five outcomes ... using play to build literacy, numeracy, and social skills before school.</i>	Cross-cutting: Play-based rhythm via multiple games + Today's Path (<code>daily</code>). Literacy: most modes (<code>letters</code> , <code>read</code> , <code>spy</code> , ...). Numeracy: light touch (<code>count</code> counts <i>letters</i> , not maths objects—see gaps). Social skills: not simulated peer play— partial via parent prompts and turn-taking language in coach copy.
<i>Play-Based Learning: exploration, imaginative play, hands-on.</i>	Existing: <code>memory</code> , <code>blocks</code> , <code>build</code> , <code>story</code> , emoji “scenes”, <code>trace</code> canvas, <code>song</code> , <code>jump</code> (embodied metaphor).
<i>Belonging, Being & Becoming / identity & connection.</i>	Partial: personalised naming in copy; joyful low-stakes endings. Gap: cultural/family/community identity content not systematically represented—requires intentional content passes and educator/family-led discussion off-device.
<i>Wellbeing: physical health, fine motor, confidence, emotional regulation.</i>	Existing partial: encouragement, short sessions, gentle difficulty (<code>gentle</code> / <code>growing</code> / <code>brave</code>), success-focused feedback; fine motor via <code>trace</code> . Gap: gross motor, sleep/nutrition, regulation programs—coach could reference breaks (future optional “pause/stretch” strip).
<i>Communication: language, early literacy (stories/songs), numeracy through play.</i>	Strong: <code>read</code> , <code>story</code> , <code>song</code> , <code>clap</code> , oral prompts, speech (<code>spell</code> mic where supported), robot voice segmentation (<code>robotVoice</code>). Numeracy-through-play: weak in-app unless extended (see §6).
<i>Social & Emotional: independence, resilience, relationships.</i>	Partial: independence via tap/keyboard mastery; resilient messaging implicitly through retries. Gap: cooperative play, friendships—outside app.
<i>Intentional Teaching: educators guide play... problem-solving.</i>	Existing: Parent Coach screen, per-round coach lines/scripts, Parent assist vs child mode, scripted teaching order on home hero. Mimics intentional teaching role for parents/caregivers .
<i>Setting: long day care, sessional kindergartens.</i>	Documentation / partnership only — not a software feature.
<i>Qualified staff: university-qualified teachers.</i>	Policy / sector — not app feature. App supports family-educator partnership only indirectly via documentation.
<i>Terminology: Kindergarten (Vic, QLD, WA, SA, TAS), Preschool (NSW, ACT, NT), Prep...</i>	Planned UX copy: locale-friendly labels in Settings or FAQ (see §6). Currently <code>lang="en-AU"</code> only.
<i>Prep/Foundation / transition to formal curriculum.</i>	Partial alignment: phonics rehearsal supports transition readiness; not full school syllabus mapping.

YOUR LINE	MAP TO SYLVIE PHONICS
<i>Literacy: songs, reading, engaging with words.</i>	Existing: song , read , listen , rhyme , rhymePairs , letters , start , etc.
<i>Numeracy: counting, sorting, patterns.</i>	Thin: count = count letters in a word (print awareness). Gap: sorting, repeating patterns (AB), number sense modes (§6).
<i>Physical: fine (cutting, drawing), gross motor.</i>	Partial digital: trace for drawing/trace; jump naming only (not full-body PT). Cutting/gross motor → offline + educator programs.
<i>Creative arts: painting, imaginative play.</i>	Partial: music/rhythm via song , drama-ish via mouth cues video ; no paint canvas. Imaginative wrappers possible in copy/ story .
<i>Victoria "Pre-Prep" / Free Kinder note.</i>	Doc + optional string for Victorian families in parent-facing appendix (§6).

• 3. Principles → app alignment

PRINCIPLE	WHERE SYLVIE ALIGNS TODAY	TYPICAL GAP / "NEW FEATURE" IDEA
Secure, respectful, reciprocal relationships	Warm tone; adult toggles (adultMode coach vs kid); no punitive scoring shaming wrong answers overtly long	No substitute for relational care in-service; optional "co-play" prompts for adult + child
Partnerships	Coach text encourages adult mediation; offline use supports home practice	Structured "talk with your educator" reminders; export/share session summary
Respect for diversity	AU English emphasis; adaptable at content level	Diverse imagery/text pipeline; home-language prompts in coach (content , not infra)
Aboriginal and Torres Strait Islander perspectives	Not embedded as dedicated content in current HTML	Respectful collaborations for stories/sounds/signs—not to be improvised; planned flagged for expert input
Equity, inclusion, high expectations	Large tap targets; keyboard help; robot voice blending support; themes	Adjustable timing; dyslexia-friendly fonts option; narration speed
Sustainability	Not thematic	Environmental print could include reduce/reuse messages sparingly (content choice)
Critical reflection	review retrains weaker items; implicit "stop after success" coach guidance	Explicit parent reflection prompts post-session (copy)

PRINCIPLE	WHERE SYLVIE ALIGNS TODAY	TYPICAL GAP / “NEW FEATURE” IDEA
Collaborative leadership	Service-level practice	Out of scope for app codebase

• 4. Practices → app alignment

PRACTICE	EXISTING FEATURES	PLANNED / DEEPEN
Holistic approaches	Mixes oral, visual, motor (<code>trace</code>), story, sentence reading	Occasional “whole child” pause prompts (water, stretch)
Responsiveness	Gentle/growing/brave; choice counts vary; voice status	Adaptive difficulty using stored results (future)
Play-based learning & intentionality	Game framing + embedded coach scripting	Strong—core product thesis
Learning environments	Calm pastel UI; focus/dark mentions in CSS classes	Reduced motion preference API (future)
Cultural responsiveness	Depends on authored word/image lists	Content audit pipeline
Continuity & transitions	Offline file; repeatable daily ritual	Printable “skills practised” for kindy handover
Assessment & evaluation	<code>review</code> , round results persisted (see app state persistence)	Educator-readable summary PDF (future)

• 5. Learning outcomes → feature map (official sub-headings only)

Official documents group each outcome under **several headings** (the bold outcome focus areas printed under each Learning Outcome). Those headings are mapped below. Exhaustive bullet-by-bullet mapping of **every** “evident when children” line appears in §5.6 as **clusters**—grouping synonymous evidence so maintenance stays tractable.

Legend

- Solid in-app **Solid in-app:** implemented as playable or visible behaviour.
- Partial **Partial:** supported indirectly (e.g., only via adult, copy, or narrow affordance).
- Planned **Planned:** credible next feature—in line with `suggestions.md` where noted.

- **Out of scope** **Out of scope:** needs human/community context, not ethical to fake in-app.

Outcome 1 — Children have a strong sense of identity

Official focus areas (AGDE, 2022):

1. Children feel safe, secure and supported
2. Children develop emerging autonomy, inter-dependence, resilience and agency
3. Children develop knowledgeable, confident self-identities and positive self-worth
4. Children learn to interact with care, empathy and respect

FOCUS AREA	SYLVIE MAPPING	NOTES
1 Safe, secure, supported	Partial Predictable UI; short rounds; reassuring feedback; adult nearby assumed	Attachment & routines are offline
2 Autonomy / agency / resilience	Solid in-app Child chooses taps; retries; exploration in memory , jump , listen ; persistence encouraged in coach tips	Peer cooperation Out of scope
3 Confident learner identity	Partial Praise on success; review reframes tricky words as garden work	Celebrate unique traits needs content
4 Care, empathy, respect	Out of scope / Partial	No multi-child avatars— coach may model respectful language (copy)

Outcome 2 — Connected with and contribute to their world

Focus areas:

1. Connectedness / rights / citizenship
2. Respond to diversity with respect
3. Awareness of fairness
4. Socially responsible / respect for environment

FOCUS AREA	SYLVIE MAPPING	NOTES
1 Citizenship / community	Partial env (environmental print) links symbols to everyday life Planned widen sign set	Voting, group projects Out of scope
2 Diversity	Planned resource diversity audit	Partner with educators
3 Fairness	Out of scope	Optional future stories Planned

FOCUS AREA	SYLVIE MAPPING	NOTES
4 Environment	Out of scope thematic sustainability	Offline excursions

Outcome 3 — Strong sense of wellbeing

Focus areas:

1. Social, emotional, mental wellbeing
2. Physical learning and wellbeing (*Framework PDF uses nuanced headings across pages*)
3. Strategies for mental/physical health & personal safety (*combined narrative in Framework*)

FOCUS AREA	SYLVIE MAPPING	NOTES
1 Emotional wellbeing	Solid in-app low pressure design; Solid in-app positive feedback loops	Trauma-informed practice service responsibility
2 Physical	Partial trace fine motor digitally; Partial jump playful movement prompt	Gross motor offline
3 Safety / health routines	Partial optional future screen-time / posture reminders	Cybersafety educator duties—app can cite eSafety in docs

Outcome 4 — Confident and involved learners

Focus areas:

1. Growth mindset / dispositions (curiosity, persistence, imagination...)
2. Problem solving, inquiry, experimentation
3. Transfer & adapt learning across contexts
4. Resource learning through people, places, tech, materials

FOCUS AREA	SYLVIE MAPPING	NOTES
1 Dispositions	Solid in-app exploratory games; Solid in-app retry loops; coach promotes effort	Narrated growth mindset snippets Planned
2 Inquiry / problem solving	Solid in-app listen , vowel , swap , digraph , g as puzzle-like noticing	Extended STEM Out of scope
3 Transfer	Partial env , spy , hunt bridge to household words (content dependent)	Home observation missions coach copy Planned

FOCUS AREA	SYLVIE MAPPING	NOTES
4 Resource learning via tech	Solid in-app offline-capable phonics suite; Solid in-app speech synthesis / mic where allowed	Guided family media plan docs

Outcome 5 — Effective communicators

Focus areas:

1. Verbal / non-verbal interaction for purposes
2. Engage with texts; gain meaning
3. Express ideas using range of media
4. Symbols & pattern systems (incl. early literacy/math patterns)

FOCUS AREA	SYLVIE MAPPING	NOTES
1 Interaction	Solid in-app oral repetition; Solid in-app song ; listening games	ATSI yarnning/listening pedagogies Out of scope shallow
2 Texts & meaning	Solid in-app read , story , song , rhyme	Book corner offline
3 Expression / media	Partial emojis/images; tracing as mark-making analogue	Proper arts studio Out of scope
4 Symbols & patterns	Solid in-app letters ↔ sounds (letters , start); Solid in-app patterns in rhyme; Partial count as symbol length; Solid in-app swap / digraph pattern noticing	Explicit phoneme-box counters [Planned suggestions.md Issue 9- style]

Framework citation relevant to Sylvie: Outcome 5 educator examples explicitly include **“play games that promote listening and following instructions, e.g. I spy with my little eye”** — aligned with **Solid in-app** **spy** (AGDE, 2022, Outcome 5 exemplar educator practices).

• 5.6 Evidence statements grouped by curriculum theme (dense mapping)

The Framework lists dozens of granular “evident when children” bullets per outcome. Here each **cluster** lists representative official ideas (paraphrase or short quote themes) → app status.

Outcome 1 — evidence clusters

CLUSTER THEME	REPRESENTATIVE EYLF IDEAS	SYLVIE
Routines / belonging cues	transitions, rituals, familiarity	Partial short ritual “Today’s Path”
Exploring identity via play	role play, initiating play	Partial story/tile reorder as micro-narrative; Out of scope no avatar role-play
Agency & choice	making choices; persistence	Solid in-app multiple modes; Solid in-app retries
pride / self-worth	sharing achievements	Partial celebration screens; Coach note encourage showing device to trusted adult

Outcome 2 — evidence clusters

CLUSTER THEME	REPRESENTATIVE EYLF IDEAS	SYLVIE
Group belonging	cooperating in groups	Out of scope
Community contribution	fairness, civic action	Out of scope
Diversity appreciation	multicultural events respect	Planned content
Sustainability & Country	caring for Country, biodiversity	Out of scope needs local programs

Outcome 3 — evidence clusters

CLUSTER THEME	REPRESENTATIVE EYLF IDEAS	SYLVIE
emotional regulation	self-soothing strategies	Partial calm UI; optional breathing text Planned
physical fundamentals	gross/fine motor, dance	Partial / trace ; Out of scope dance
healthy habits	hygiene, nutrition, sleep literacy	Partial doc-only reminders
digital wellbeing	posture, balanced tech	Planned parent tip lines

Outcome 4 — evidence clusters

CLUSTER THEME	REPRESENTATIVE EYLF IDEAS	SYLVIE
curiosity & imagination	imaginative investigation	Solid in-app many modes
scientific/mathematic reasoning	classify, hypothesise	Partial pattern games weak for math
documenting learning	revisit ideas	Solid in-app review
ICT investigation	purposeful digital tools	Solid in-app

Outcome 5 — evidence clusters

CLUSTER THEME	REPRESENTATIVE EYLF IDEAS	SYLVIE
listening / instructions	rhyme/sound patterns	Solid in-app song , listen , spy
print & multimodal texts	responding to visuals/audio	Solid in-app
rhyme & phonological awareness	sounds of language	Solid in-app broad coverage
early writing approximations	letter-like marks	Partial trace
maths language in comms	size/count vocabulary	Partial unless expanded

• 6. Planned features (prioritised backlog from curriculum gaps)

ID	CURRICULUM DRIVER	PROPOSAL	RELATION
P1	Numeracy strand	Lightweight Sort & Pattern mini-games (AB patterns; sort-by-one-attribute) distinct from phonics OR themed “phonics picnic” merges	Outcome 4 & 5 pattern systems
P2	Phonological awareness clarity	True phoneme counter draggable boxes (suggestions.md Issue 9)	Outcome 5 letter-sound deeper than count

ID	CURRICULUM DRIVER	PROPOSAL	RELATION
P3	Wellbeing	Optional stretch / drink break interstitial between rounds	Outcome 3
P4	Terminology inclusion	Setting: Region label ("Kindergarten", "Preschool", "Pre-Prep") swaps parent-facing hero copy only	User narrative §2
P5	Partnership	Printable summary ("We practised: ...") for educators	Principle Partnerships

7. Implemented game catalogue (canonical reference)

Listed as in [GAMES](#) inside [index.html](#) (research date 2026-05-03):

ID	FEATURE TITLE
start	First Sound Garden
letters	Letter Lab
trace	Trace Letters
memory	Memory Match
clap	Clap Syllables
listen	Sound Safari
vowel	Vowel Garden
build	Build and Blend
spell	Say and Spell
rhyme	Rhyme Time
digraph	Digraph Peek
swap	Sound Swap Detective
g	Tricky G Detective

ID	FEATURE TITLE
read	Tiny Reader
story	Story Builder
video	Watch and Learn
spy	I Spy Sound
hunt	Sound Hunt
blocks	Sound Blocks
rhymePairs	Rhyme Pairs
song	Sound Song
jump	Sound Jump
count	Word Counters (<i>letters-in-word cardinality</i>)
env	Environmental Print
review	Review Garden
(pseudo) daily	Today's Path (mixed lesson)

Cross-cutting UX: Parent **Coach** screen, **Robot voice** segmentation toggle, difficulty pills, bilingual-ready **en-AU** narration hook.

• 8. Maintainer note

When adding modes or rewriting coach strings:

1. Update **\$7** (**GAMES**).
2. Add a row where relevant in §§3–6.
3. For ATSI perspectives or multicultural stories, treat as **professional content authoring**—not ad-libbed by implementers without community guidance.

Document generated to support curriculum transparency for Sylvie Phonics. Framework quotations and structure are attributable to AGDE (2022) as cited.
